

CONVERTING COFFEE
INTO SOFTWARE
SINCE 1976

Celebrating 45 Years!

In 1976, as the USA was celebrating the 200th anniversary of its founding, Amgraf was incorporated as a software company with the slogan "New Horizons in Computer Graphics". Sure, it takes a positive work ethic, sound planning, strong technical skills, imagination, and lots of luck to succeed in the software business. But we are marking our 45 year milestone with a tribute to **coffee**.

At Amgraf we always have pots of fresh brewed coffee (flavored and regular) and everyone has to pass by the coffee room as they traverse the offices. From the first morning cup to that final afternoon pick-me-up, coffee (and no doubt caffeine) have helped our programmers and designers increase their productivity and meet deadlines. This slight edge in performance has certainly contributed to our longevity. In the fast-paced world of computing technology, almost everything has changed over the past 45 years, but a good cup of coffee is still something to enjoy.

So we decided to have 45th anniversary promotional coffee cups made to send to our customers and friends. We gathered in the conference room to discuss the cup design. As you would expect, some employees were drinking coffee at the meeting, and a variety of cups were represented. Before long, the consensus was that cups that looked like advertisements were unpopular. It was also mentioned that coffee stains (like the one on the opposite page) and desktop rings were a hazard. Maybe the answer was to send promotional "coasters" instead of cups.

Enclosed you will find what we settled on: a simple black and white ceramic cup with a small Amgraf mark, and an accompanying weighted coaster with the full Amgraf logo. **Please accept these gifts with our thanks for being part of our first 45 years.**

Highlights in the History of Amgraf, Inc.

- 1976 - Amgraf founded by Franklin J. Garner, III and Robert Kisel. Developed GRAFICA
- 1977 - Amgraf opens its first offices in Kansas City's historic Union Station
- 1979 - Launches MECCA™ (Mechanical Editor for Computer Created Artwork)
- 1982 - Amgraf relocates its main offices into downtown Kansas City, Missouri
- 1982 - MECCA II runs on IBM 370 mainframes
- 1984 - MECCA III was born. Over the next 14 years 1,500+ MECCA III systems delivered
- 1992 - Introduction of the PixeLace™ Security Feature
- 1997 - OneForm™ Designer developed for Windows PC electronic forms
- 1998 - MECCA 2000 introduced to replace MECCA III
- 2000 - Develops Stationery Option for the online ordering of imprinted documents
- 2003 - Develops method to convert Content Metadata XML into fillable forms
- 2004 - Begins hosting e-commerce web sites
- 2005 - Develops eForms Accessibility Option for visually handicapped persons
- 2006 - Nominated Best Software and Best Technology Provider at Gartner Print & Imaging Summit
- 2007 - Amgraf receives U.S. Patent No. 7,196,822 for the LogoDot security document technology
- 2008 - Implements an online artwork ordering Void Pantograph Service called VoidMaker™
- 2009 - Opens the eForm Solutions and Services center
- 2009 - Franklin Garner receives Jo Warner award from the Business Forms Management Association
- 2010 - Adds international language support to OneForm Designer Plus
- 2015 - Contracts with U.S. Census Bureau to develop an international forms design system
- 2017 - Amgraf sponsors PRISM, the Public Retirement Information Systems Management association
- 2018 - Developed HTML5 code generation extensions to design and deploy mobile-device e-forms
- 2019 - Processed the 800th secure online application for VoidMaker Pantographs
- 2020 - Introduces Graphing Software to connect Forms Portal data to interactive charts and graphs
- 2021 - OneForm Accessibility is enhanced to support PDF/Universal Accessibility ISO 14289
- 2022 - Integrated DocuSign Electronic Signature and Remote Notary into the Amgraf's Forms Portal
- 2023 - MECCA QRCode generator was integrated into OneForm Designer Plus - Universal (OFDP-U)
- 2024 - The Kansas City Chiefs were crowned Super Bowl Champions for the second year in a row!
