

Amgraf Forms Portal Software

Simplify Online eForms Management with Secure Access and Robust Features

Amgraf Forms Portal Software is a powerful, server-based solution that enables organizations to efficiently manage access to large repositories of intelligent, database-connected eForms. Our browser-based portal provides a seamless experience for users to find, fill, save, email, print, and convert **OneForm HTML eForms** into complete finalized PDFs. With built-in administrative controls, you can easily manage user roles, set access permissions, and regulate form usage across teams and departments.

Flexible Hosting Options

The Amgraf Forms Portal solution can be:

- ▶ *Installed on your internal web server*
- ▶ *Fully managed by Amgraf as a complete hosting solution*
- ▶ *Hosted by an independent third-party ISP*

With support for multiple web server environments, users can submit and retrieve eForms directly from your database tables. Whether for internal or external use, our platform scales effortlessly to accommodate unlimited users and forms.

A Feature-Rich eForms Solution

Amgraf Forms Portal is designed to streamline workflows and enhance data security. **Key features include:**

- **Unlimited Users & Forms** – A single server license supports an unlimited number of users and eForms
- **24/7 Availability** – Always-on access to your eForms repository
- **Custom Form Cataloging** – Organize forms by purpose and classification, with a “Favorites” feature for quick access
- **Intelligent eForms** – Real-time field validation and full database connectivity for input/output operations
- **Workflow & Approvals** – Support for collaborative form completion, multi-level approvals, and shared inboxes
- **Searchable Database** – Find, copy, print, and export completed eForms with ease
- **Enhanced Data Handling** – Insert photos, attach files, and save forms for continued filling across multiple sessions

Why Choose Amgraf?

With almost 50 years of experience, Amgraf is a trusted leader in form-based software solutions for businesses, government agencies, and print manufacturers. We provide the tools you need to design, deploy, and manage a secure, state-of-the-art eForms program in-house—or let our expert team deliver a fully customized turnkey solution tailored to your needs.
